PROJECTS:

- **Drum-Kit:** It is a web-based application which can play different sounds of drums depending upon which letter on keyboard is pressed. It is a fun-based application by which one can soothe his mind and refresh one's self. **[LINK]**

- **Simon Game:** Simon is a game of short-term memory. The web application creates a series of tones and lights and requires a user to repeat the sequence. If the user succeeds, the series becomes progressively longer and more complex. Once the user fails or the time limit runs out, the game is over. **[LINK]**

- **Social-distancing-and-face-mask-detector:** The Face Mask Detection is a project which aims to aid the authorities in maintaining public safety measures this time by helping them differentiate between the people wearing and not wearing masks. After detection, the data of people violating the rule is also stored and a mail is also sent to the authority. The purpose of Social Distancing Detection project is to aid the authorities to monitor social-distancing in pandemic situations. After detection, the data of people violating the rule is also stored and a mail is also sent to the authority. **[LINK]**
